

# Contrast Giftwrap

## Items needed (quantity per creation)

- Dark wrapping paper
- Metallic sharpies

## Instructions

Making wrapping paper is very easy. Below are two beautiful designs to try on dark paper. Remember to make enough to wrap the gift.

1. Galaxies - Use a metallic sharpie to draw constellations onto the paper. Draw a \* for big stars and connect some with dashed lines. Add small dots for other stars.
2. Baubles - Use a metallic sharpie to draw baubles onto the paper. Start with a circle, add a double loop bow and a hanging ribbon. Finish up by adding a design to the bauble.
